AN IMPORTANT BOOK FOR BIBLE STUDENTS

Constructive Studies in the Life of Christ

THIRD EDITION

By ERNEST D. BURTON and SHAILER MATHEWS

Professors in the University of Chicago

A book prepared especially for use by advanced Bible students. Used during the past season by many clubs and classes in different parts of the United States and England.

THE ORDER OF TREATMENT

is that of the Stevens and Burton "Harmony of the Gospels," and the book constitutes a compendious commentary on the Gospels as thus arranged.

THE METHOD OF TREATMENT

is interpretative and historical. The most important political and social features of New Testament times are described, and the endeavor is made to present the events of the Gospel history in a true, historical perspective.

THE PURPOSE OF THE BOOK

is expressed in its title; it aims to guide the student in the construction for himself of a life of Christ, derived directly from the sources as they exist in the New Testament.

THE PLAN OF STUDY

is to present the best attained results of biblical scholarship, employing the best modern pedagogical methods. The studies contain: (1) an analysis of the Gospel narrative; (2) concise notes of information on matters about which accurate knowledge is not easily obtained; (3) brief interpretation of difficult passages; (4) geographical and chronological explanation; (5) specific directions for study, and for the construction of a short life of Christ by the student himself; (6) questions which lead the student into an understanding of the Gospel history.

"It seems to us far superior to any scheme of Bible study that we have seen."—*The Outlook*, New York, N. Y.

"It is written with the purpose of leading men to Christ; and the treatment of each theme is manly, intelligent, and spiritual."—*The Interior*, Chicago, Ill.

"There is no evasion, no trimming nor pruning, but an exact compliance with an honest interpretation of the Divine Record. To us the work is in many ways refreshingly suggestive."—*Baptist Standard*, Chicago, Ill.

"No denominational line is drawn in reference to sources, and no appeal whatever is made to the denominational bias of the study."—*The Tribune*, Chicago, Ill.

"The Constructive Studies in the Life of Christ ought to be and is an admirable help for students of the New Testament in colleges and academies and Sunday schools. . . . The matter, moreover, is presented in a correct systematical arrangement, and embodied in a form adapted to the purpose of the volume.—*The Sunday School Times*, Philadelphia, Pa.

"No method of getting up the life of our Lord is, in our judgment, so successful as this. It is not cram. It lives and moves in a region above mere memory work. It is science. It has all the latest aids that science has furnished, and it is itself a branch of science."—*The Expository Times*, Edinburgh, Scotland.

The book contains a beautiful and accurate map of Palestine and numerous illustrations.

The Opinion of an English Contemporary

"There is extraordinary activity in America at present in higher Bible study. By 'higher' we mean study by adults—study beyond the reach of the Sunday school. The activity is largely due to the efforts of the University of Chicago, and the instrument is chiefly their monthly magazine, the *Biblical World*."—The Expository Times.

Russian Political Institutions

By MAXIME KOVALEVSKY

Formerly Professor of Public Law at the University of Moscow

A sketch of Russian Political Institutions, past and present. The author's task has been to give a bird's-eye view of the internal development of Russia.

Up to the present time the standard work on Russia for English-speaking peoples has been Mackenzie Wallace's volume. The aim of Professor Kovalevsky's book differs widely. Instead of aiming "to convey a general idea of the country and people" (as Wallace phrases his object), it is essentially expository—the history of an evolution. This history has never before been written in English. In the main the book is one for the student and the scholar, in a much more intimate sense than is, for instance, Professor Bryce's *American Commonwealth*. But the sections dealing with the emancipation of the serfs, local self-government, and, especially, the universities and the press, will be found to contain matter not only not elsewhere accessible, but of universal interest.
